THE BUILDING CONSTRUCTION SEQUENCE

How FORMX transforms raw land into a 100% executed, code-compliant industrial facility through a 6-stage coordinated workflow.

STAGE 01 OF 06 • SITE & SOIL SURVEY

01  SITE & SOIL SURVEY

02  ARCHITECTURAL MASTERPLAN

03  STRUCTURAL RCC & STEEL FRAME

04  MEP & UTILITY ROUTING

05  GFC & CODE CERTIFICATION

MILESTONE 01

IS 1882 & IS 1488

KEY PERFORMANCE METRIC

100% Topographic Accuracy

STAGE 01 WORKFLOW

TOPOGRAPHIC ANALYSIS & CIVIL GRADING

Site contour mapping, soil bearing capacity evaluation, and storm water runoff drainage design. Establishes the physical baseline before structural grid alignment.

STAGE OUTPUT & DELIVERABLES:

- 01 Soil Test & Load Capacity Report
- 02 Topographic Contour Vector Map
- 03 Site Grading & Drainage Plan

MULTIDISCIPLINARY PRACTICE

10 COORDINATED ENGINEERING SERVICES

Delivered as one single-window GFC-ready package — zero inter-discipline clashes.

EXPLORE ALL 10 SERVICES →

Our Services

High-Rise Structures & Residential

We specialize in resilient high-rise and residential design, delivering safe, innovative, and resource-optimized structures that elevate the urban experience.

Institutional & Commercial

Facilities such as schools, hospitals, and office buildings designed to optimize usability and structural integrity while maintaining aesthetic appeal.

Industrial Projects

Crafting robust and efficient manufacturing facilities customized to your unique operational requirements, prioritizing safety and sustainability at every stage.

Strengthening & Retrofitting

Revitalize current structures to fulfill new functional needs, strengthen them with cutting-edge standards, and prolong their lifespan using inventive reinforcement methods and materials.

We also assist with quantity estimation, construction support, and coordination for seamless execution.

At **FormX**, we don't just design structures — we craft lasting solutions that reflect stability, creativity, and precision. Always open to fresh ideas and complex challenges, we believe every structure has a story — and we're here to engineer it right.
